

## 2. Training Public: Modal Window

The screenshot shows a 'Course details' modal window with the following sections and callouts:

- 1.0** points to the **Item** column header.
- 1.0** points to the **productQuantity** field.
- 1.0** points to the **productPrice \*** field.
- 1.1** points to the **productQty** field.
- 1.1** points to the **(productPrice each)** text.
- 3.0** points to the **Attendee Details** section header.
- 4.0** points to the **Billing Details** section header.
- 5.0** points to the **Purchase Order:purchaseOrder** and **eWay ID: ewayID** fields.
- 2.0** points to the **orderTotal - discountAmount** field.

The modal window contains the following data:

Item	Qty	Price	Attendee Details	Billing Details
<b>productName</b> > Location: productLocation > Start: productStart > End: productEnd > Code: productCode > Category: productCategory + WISENET	productQuantity	productPrice *	customerFirstName customerLastName customerCompany customerAddress1 customerAddress2 customerCity State Postcode customerCountry Email: customerEmail Phone: customerPhone Customer Position: customerPositionTitle Work Phone: customerWorkPhone	billingFirstName billingLastName billingAddress1 billingAddress2 billingCity State Postcode billingCountry Purchase Order:purchaseOrder eWay ID: ewayID
<b>productName</b> > Location: productLocation > Start: productStart > End: productEnd > Code: productCode > Category: productCategory > Added to Wisenet: DATETIME Undo	productQuantity	productPrice *		
Subtotal:		orderTotal - discountAmount		
Discounts:		discountAmount

At the bottom of the modal is a **CLOSE** button.

1.0

mod\_foxycart\_products table

1.1

mod\_foxycart\_products table:  
Take productPrice and multiply by productQuantity.  
HTML output will look like this if there is only 1 quantity:  
\$495 (\$495 each)  
If the quantity is 2 or more:  
\$990 (\$495 each)

2.0

mod\_foxycart\_orders table:  
Take orderTotal and add discountAmount for Subtotal row.  
HTML output for the 3 rows will look like this if there is a \$200 discount:  
\$990  
\$200  
\$790

3.0

mod\_foxycart\_customers table

4.0

mod\_foxycart\_billing table

5.0

mod\_foxycart\_orders table  
Please note: Each order will only have one of these fields populated (either purchaseOrder or ewayId). Only show the line that has data populated eg. if the order has a purchaseOrder field populated only show this and not the ewayId field.
